

# Collated 20# Bond Form Sets

## SAFE FOR:

- LASER
- INK-JET
- COPY MACHINE
- OFFSET PRESS
- DIGITAL DUPLICATOR

### Paper Specifications:

**White = 96 Bright**

**Colors = 30% Post-Consumer Content,  
Acid-Free**

**Weight = 20#**

**Shrink wrapped per ream.**

**THESE SHEETS ARE NOT CARBONLESS!  
THEY DO NOT HAVE THE ABILITY TO CARBON.**

Lowers Industries started manufacturing Collated Bond when we converted from a dot matrix printer to a laser more than two decades ago. Using the same standard paper color sequence as continuous multi-part forms, we were able to convert with no changes to our procedures. **Safe for all printers**, this product is designed for forms that are ready to disperse after printing. Unlike carbonless paper, writing on the top copy of the set will not result in the image transferring down to the remaining copies. Lowers Industries Collated Bond is perfect for forms applications such as invoices or statements, or any form type that doesn't require the carbon action. Select this product when you application does not require additional information to be written and have the image transfer to the next sheet.

The stock color sequences are available by the package (500 sheets) or by the case (10 packages). Each package is shrink wrapped with the product description on the top and front side. To determine the number of sets per package, divide 500 by the number of parts (2 part = 250, etc.) Custom paper color sequence orders are also available by the case of 5000 total sheets in both 8.5" x 11" and 8.5" x 14".

## BLANK BOND AND CARBONLESS COLLATED FORM SETS

● *Attention*

THIS NOTICE APPLIES TO;

- BLANK STOCK SEQUENCE
- BLANK CUSTOM SEQUENCE
- PRINTED STOCK SEQUENCE
- PRINTED CUSTOM SEQUENCE

As this product/service has become one of our most popular, our inventory level can fluctuate from day to day. Although not always the case, please allow 5-7 working days for production plus shipping time for delivery.

IT MAY BE NECESSARY TO SHIP LARGE ORDERS AS PARTIAL SHIPMENTS. SHOULD THIS PRESENT A PROBLEM, PLEASE CALL 1-800-965-1452.

Sincerely;

Stephen L. Lowers

## **UPS DOES NOT OFFER INSURANCE!**

**Due to a number of large boxes of carbonless and collated bond paper being damaged or destroyed by UPS in a single 30 day period, we have been forced to adopt a new shipping policy. All orders of 25 lbs or more must be shipped in a box that has a 275 lb. per square inch bursting test certification printed on the bottom of the box. The original factory boxes do not meet this UPS requirement. To be able to guarantee safe delivery of your order and to be able to place a claim in the event of any damage, we must now transfer the product to the heavier box.**

### Declared Value

Declared value is not insurance. The declared value of your shipment indicates UPS's maximum liability for a package that is lost or damaged. UPS's liability is limited to US\$100.00 (or local currency equivalent) on packages with no declared value. You can choose to declare a higher value for your shipment up to the maximum allowed in your country, by entering a declared value in the shipping system used and paying an additional charge. When you declare a value in excess of \$100 (or local currency equivalent), you do not receive any form of insurance. Shippers desiring cargo insurance, all risk insurance, or another form of insurance should purchase such insurance from a third party.

Limits on declared value and restrictions on UPS's liability (including for packages not adequately packaged) are described in the UPS Tariff/Terms and Conditions of Service, available at [ups.com](http://ups.com). For non-U.S. origin shipments, please refer to the UPS Terms and Conditions of the origin country.

**LIMITS AND CONDITIONS:** Your shipment must be boxed to UPS standards for packing and the box must have a "Box Certificate" printing on the bottom stating that the "Bursting Test" is equal to, or greater than, 275 lbs per square inch. No claim will be considered if these conditions are not met.
